

**UNITED STATES DISTRICT COURT FOR THE
WESTERN DISTRICT OF MICHIGAN**

SIP SHINE, LLC, a Michigan limited liability
company,

Plaintiff,

v

RED BOOT DISTILLERY, INC., an Iowa
corporation,

Defendant.

Case No. 1:22-cv-887

Honorable

COMPLAINT AND JURY DEMAND

Douglas A. Donnell (P33187)
Mika Meyers PLC
Attorneys for Plaintiff
900 Monroe Avenue NW
Grand Rapids, MI 49503
(616) 632-8000
ddonnell@mikameyers.com

NOW COMES Plaintiff SIP Shine, LLC (“SIP Shine”), by and through its attorneys, Mika Meyers PLC, and for its Complaint against Defendant Red Boot Distillery, Inc. (“Red Boot”), states and alleges as follows:

PARTIES, VENUE AND JURISDICTION

1. Plaintiff SIP Shine is a Michigan limited liability company with its principal place of business located in Ottawa County at 702 Chicago Drive, Jenison, Michigan 49428.
2. SIP Shine is in the business of selling in the wholesale and retail markets various alcoholic beverages, sold under a variety of brand names in Michigan and throughout the United States.

3. Defendant Red Boot is, upon information and belief, an Iowa corporation with its principal place of business located at 1587 NE 67th Place, Des Moines, Iowa 50313.

4. Red Boot is in the business of supplying finished packaged alcoholic products to customers, such as SIP Shine.

5. At all relevant times, Red Boot has, upon information and belief, shipped products produced by Red Boot to the State of Michigan.

6. According to its website, Red Boot conducts business by shipping product throughout the entire United States and boasts of the advantage of its central location in the United States to do business throughout the United States, including Michigan. See **Exhibit A**, excerpt from Red Boot website.

7. In connection with the contractual arrangement between SIP Shine and Red Boot, all payments from SIP Shine to Red Boot were made from Michigan, and the purchase orders for products to be produced by Red Boot were issued from Michigan.

8. Many of the products produced by Red Boot for SIP Shine were shipped by Red Boot to various locations within the State of Michigan.

9. Jurisdiction is proper under 28 U.S.C. §1332 in that SIP Shine and Red Boot are citizens of different states, and the matter in controversy exceeds \$75,000, exclusive of interest and costs.

10. Venue in this district is proper under 28 U.S.C §1391(b)(2) and (c)(2).

GENERAL ALLEGATIONS

11. Beginning in January 2021, SIP Shine and Red Boot reached agreement on the production of various alcoholic beverage products to be produced and bottled or canned by Red

Boot for SIP Shine and shipped to locations designated by SIP Shine, some of which were in Michigan.

12. For each product, the Alcohol and Tobacco Tax and Trade Bureau (“TTB”) requires a separate registration which includes, among other things, the product formulation and ingredients.

13. For each of the products ordered and purchased by SIP Shine and produced by Red Boot, SIP Shine worked with Red Boot to develop a specific formulation and list of ingredients for each product and the TTB registration for each specific product. Red Boot agreed to produce the SIP Shine products in accordance with the specifications Red Boot had assisted in creating. Red Boot is in possession of all SIP Shine product formulas and TTB registrations, and examples of the TTB registrations for several of the products at issue in this litigation are attached as **Exhibit B** and incorporated herein by reference.

14. For the products at issue in this action, a key ingredient was whiskey. Many alcoholic products such as those sold by SIP Shine and those produced by Red Boot can be made with different alcohols, including grain neutral spirits. Using whiskey as the key alcoholic ingredient, as opposed to grain neutral spirits, is more expensive and is marketed as a higher quality product by SIP Shine. For each of the SIP Shine products at issue in this case, SIP Shine specified the use of whiskey as opposed to either grain neutral spirits or a blend of grain neutral spirits and whiskey. This ingredient requirement was an explicit part of the pre-production discussion between SIP Shine and Red Boot and was well known by Red Boot when it agreed to produce the subject products in accordance with SIP Shine’s specifications.

15. In addition to the TTB registration for each product, product labeling must accurately set forth the ingredients in the bottled or canned beverage. The labels for cans and

bottles provided by SIP Shine to Red Boot for these various products accurately identified the ingredients as specified by SIP Shine, including whiskey.

16. At all relevant times while Red Boot produced alcoholic beverages for SIP Shine, Red Boot represented that it complied with the formulation requirements and specifications set forth by SIP Shine, including use of whiskey rather than grain neutral spirits, and that the finished products complied with the product specifications the parties agreed upon, the TTB registration for each product, and the labeling placed on each product.

17. For an unknown period of time prior to June, 2022, Red Boot, on its own initiative and without authorization by or knowledge of SIP Shine, changed the formulation used in the SIP Shine products which are the subject of this action, by substituting less expensive grain neutral spirits for whiskey specified by SIP Shine and represented on the TTB registration and product labels. SIP Shine has no way of knowing how many bottles or cans of its product were improperly formulated and non-conforming to the specifications supplied by SIP Shine and shipped to SIP Shine's customers, but SIP Shine believes that such unauthorized substitution of ingredients occurred from the beginning of Red Boot's production, or at least for some period of months before it was discovered that Red Boot had substituted lower cost ingredients, contrary to both the TTB registration and the product labels.

18. On May 11, 2022, SIP Shine was advised by Red Boot that TTB had determined that substantial quantities of SIP Shine products produced and either bottled or canned by Red Boot did not comply with the TTB registration or the product labeling on the containers. As a result, TTB prohibited the shipment of \$419,042.52 in non-conforming inventory produced and held by Red Boot. SIP Shine confirmed these facts directly with TTB. At the time of TTB's shipment ban, SIP Shine had already paid to Red Boot \$310,441.52 for the purchase of this non-

conforming product. See paid invoices and cancelled checks attached as **Exhibit C** and incorporated herein by reference. Additionally, SIP Shine had paid for substantial additional quantities of these products and believes Red Boot shipped to distributors and retailers such non-conforming products. Together, the non-conforming products banned from shipment and the products believed by SIP Shine to be non-conforming that were shipped total \$495,240.07. See **Exhibit C**.

19. The SIP Shine products which were subject to the TTB shipping ban because they were non-conforming to the TTB registration and labeling are the following: SIP Shine Arnold Shiner; SIP Razz-Berry Shineade; SIP Shine Sweet Tea; SIP BerrySweet Tea; SIP Razz Shineade; SIP Shine Razzshineade; Kyodie Peach Whiskey; and SIP Shine Watermelon Chillade.

20. As Red Boot was SIP Shine's only producer of the products identified in the preceding paragraph, SIP Shine was suddenly unable to sell and ship any of these products to distributors or retailers.

21. Red Boot's decision to substitute ingredients was, upon information and belief, done knowingly for the express purpose of reducing its costs, while concealing the substitution from SIP Shine. SIP Shine does not know when this unauthorized substitution began but believes that non-conforming product was distributed into the marketplace before the TTB discovery that the products produced by Red Boot did not comply with either the TTB registration or product labeling, likely from the very beginning of Red Boot's production of these products.

22. As a result of Red Boot's fraudulent substitution and concealment of that substitution in clear breach of Red Boot's contractual obligations, and SIP Shine's loss of faith in the credibility and honesty of Red Boot, SIP Shine was forced to begin making immediate plans

to arrange for a different supplier for its beverages and cancelled and discontinued all further purchases from Red Boot.

23. Red Boot has acknowledged that the SIP Shine products it produced that were banned from shipment by TTB did not conform to the specifications for these products provided by SIP Shine, or the TTB registration, or the labels on the product containers, and has offered no legitimate explanation for its unauthorized substitution of ingredients.

24. Of the \$419,042.52 in non-conforming, unusable inventory banned from shipment by TTB, SIP Shine had already paid Red Boot \$310,441.52 for these products. Additionally, SIP Shine has paid to Red Boot \$184,798.55 for products shipped by Red Boot which SIP Shine believes was also non-conforming because of the unauthorized substitution of ingredients, for a total paid to Red Boot for these products of \$495,240.07. Red Boot has not returned these payments despite the admitted non-conformity of the goods it produced. Copies of the purchase orders for these products and proof of payment by SIP Shine are attached as **Exhibit C**.

25. After Red Boot acknowledged it improperly substituted ingredients, it purportedly offered to “cure” in June, 2022 by providing fully conforming goods in the same quantities that were prohibited from shipment by TTB. Such cure was to be at “no cost to SIP Shine.”

26. Red Boot has failed to produce or ship any conforming product to replace the inventory that was precluded from shipment by TTB, despite having promised to do so and having more than adequate time to accomplish the “cure” it proposed.

27. In addition to the failure of Red Boot to produce conforming product to replace the non-conforming product, or return the money already paid by SIP Shine to Red Boot for the non-conforming product, SIP Shine has also suffered damage in the amount of \$253,917.52 for raw goods which were paid for by SIP Shine and provided to Red Boot, which raw goods were either

incorporated in the non-conforming product produced by Red Boot which is no longer saleable, or which Red Boot still has in its possession. A listing of these raw goods is contained in **Exhibit D**, attached hereto and incorporated herein by reference.

28. Additionally, Red Boot has also refused to ship conforming Kyodie and Gannett Peak products for which SIP Shine paid \$3,461.10, even though there is no TTB prohibition on the sale of these products.

29. Each of the purchase orders for products that were prevented from shipment by TTB formed a contract between the parties whereby Red Boot agreed to produce a product conforming to SIP Shine's specifications in exchange for the specified price to be paid by SIP Shine.

30. SIP Shine has fully performed its obligations under the purchase order contracts.

31. Red Boot knowingly breached its contractual obligations to provide conforming products and given its deliberate decision to substitute ingredients without authorization, SIP Shine was entitled and forced to cancel and terminate further orders from Red Boot, which had demonstrated bad faith and dishonest dealing with SIP Shine.

32. SIP Shine's new product supplier who has replaced Red Boot is ramping up production efforts, but to date, has not been able to produce and ship any SIP Shine products to replace the loss of production by Red Boot. It is anticipated that such production and shipment from the new supplier will begin by the end of September, 2022.

33. As a result of Red Boot's unlawful conduct, its inability or refusal to cure its breach by supplying conforming goods, its refusal to return money paid for the non-conforming goods which were not saleable, its refusal to ship conforming goods, or even return unused raw goods

paid for by SIP Shine, SIP Shine has suffered damages in many respects, including but not limited to the following:

- A. \$495,240.07 paid to Red Boot by SIP Shine for the non-conforming product that was not allowed to be shipped or sold or was shipped before the TTB ban.
- B. \$3,461.10 for product that is conforming, but which Red Boot has refused to ship, despite the fact that SIP Shine has paid for and directed shipment of this product.
- C. \$253,917.52 in raw goods paid for and supplied by SIP Shine to Red Boot, but either incorporated into non-conforming products or not returned to SIP Shine by Red Boot.
- D. Damage to the relationship between SIP Shine and its distributors and customers resulting from the sudden shortage of supply in SIP Shine products caused by the need for SIP Shine to find an honest product supplier who did not misrepresent the ingredients in the products it was producing.
- E. Approximately \$16,373.00 in extra transportation and warehousing expenses incurred by SIP Shine in relocating the limited supply of products it had nationwide to areas of greatest need and demand, caused by the forced termination of supply from Red Boot.
- F. An estimated \$40,000.00 in costs and expenses incurred to locate and make all necessary arrangements to replace Red Boot's production with a new supplier.

- G. Lost profits in an amount to be determined but estimated to exceed \$750,000.00 from (1) lost sales of the non-conforming goods, (2) the conforming goods which were not shipped, and (3) termination of production by Red Boot, resulting in serious product shortages of SIP Shine products until the new product supplier can produce and ship at production levels previously ordered by SIP Shine from Red Boot.
- H. Damage to SIP Shine's reputation and credibility in the marketplace for having sold products that were not as represented on the product labels.

COUNT I – BREACH OF CONTRACT

34. Plaintiff SIP Shine repeats, as if fully set forth herein, the allegations contained above in paragraphs 1-33.

35. Red Boot's production of non-conforming goods, contrary to the specifications provided by SIP Shine, and contrary to the TTB registration and labeling, constitutes a breach of every purchase order contract by which non-conforming goods were to be supplied. At present, SIP Shine knows of the non-conforming goods that were identified by TTB, but believes additional non-conforming goods were produced and shipped by Red Boot, in breach of its purchase order contracts with SIP Shine, likely since the beginning of Red Boot's production of SIP Shine products.

36. As a direct and proximate result of Red Boot's breaches of contract, SIP Shine has suffered damages as outlined above, and in ways and amounts yet to be determined through further investigation and discovery.

37. In addition to the direct losses caused by Red Boot's breaches of contract, SIP Shine has further suffered incidental and consequential damages as set forth above as a direct and proximate result of Red Boot's breaches of contract.

WHEREFORE, SIP Shine prays for a judgment against Red Boot in an amount yet to be determined above \$75,000, together with interest, costs and attorney's fees incurred herein and such other relief as the Court deems just and equitable.

**COUNT II – BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
MCL 440.2314**

38. Plaintiff SIP Shine repeats, as if fully set forth herein, the allegations contained above in paragraphs 1-37.

39. The purchase order contracts between SIP Shine and Red Boot were contracts for the sale of goods as defined in the Uniform Commercial Code.

40. For the sale of goods, such as the products provided by Red Boot to SIP Shine at issue in this case, there was an implied warranty that the goods would be merchantable for their sale.

41. Under MCL 440.2314(1), Red Boot is a "merchant."

42. In order to be merchantable, the products produced by Red Boot were required to:

- A. Pass without objection in the trade under the contract description;
- B. Be adequately contained, packaged and labeled as the agreement may require; and
- C. Conform to the promises and affirmations of facts made on the container or label.

43. By substituting key ingredients in the formulation of the products Red Boot produced for SIP Shine, Red Boot breached its implied warranty of merchantability as set forth in the preceding paragraph.

44. SIP Shine believes that Red Boot breached its implied warranty of merchantability not only with respect to the products that were banned from shipment by TTB, but from earlier shipments of SIP Shine products by Red Boot before discovery of the unauthorized substitution of ingredients.

45. As a result of Red Boot's breach of implied warranty of merchantability, SIP Shine has suffered damages as alleged above.

46. Red Boot has not cured this breach of implied warranty and is liable to SIP Shine for all such damages alleged above.

WHEREFORE, SIP Shine prays for a judgment against Red Boot in the amount of its damages above \$75,000.00 suffered as a result of Red Boot's breach of implied warranty, together with interest, costs and attorney's fees incurred herein and such other relief as the Court deems just and equitable.

**COUNT III – BREACH OF IMPLIED COVENANT OF GOOD FAITH AND
FAIR DEALING**

47. Plaintiff SIP Shine repeats, as if fully set forth herein, the allegations contained above in paragraphs 1-46.

48. In Michigan, the duty of good faith and fair dealing is implied in every contract.

49. Red Boot's conduct as described above constitutes a breach of its duty to act in good faith and fair dealing with SIP Shine by deliberately, and without authorization or notice to

SIP Shine, substituting inferior ingredients contrary to the specifications agreed upon by the parties for each of the products at issue in this case.

50. As a result of Red Boot's breach of the duty of good faith and fair dealing, SIP Shine has suffered damages as more fully set forth above and Red Boot is liable to SIP Shine for all such damages.

WHEREFORE, SIP Shine prays for a judgment against Red Boot awarding all of its damages above \$75,000.00 suffered as a result of Red Boot's breach of the duty to act in good faith and fair dealing, together with interest, costs and attorney's fees incurred herein and such other relief as the Court deems just and equitable.

COUNT IV – COMMON LAW CONVERSION

51. Plaintiff SIP Shine repeats, as if fully set forth herein, the allegations contained above in paragraphs 1-50.

52. Red Boot has exercised wrongful control over SIP Shine's property, and has refused to return to SIP Shine the following:

- A. \$495,240.07 in direct payments to Red Boot for non-conforming products.
- B. Raw goods supplied by SIP Shine to Red Boot, for which SIP Shine paid \$253,917.12, which were either incorporated into the production of Red Boot's non-conforming product or are still in the possession of Red Boot.
- C. Conforming product paid for by SIP Shine in the amount of \$3,461.10 which Red Boot has refused to ship.

53. Red Boot's wrongful control and refusal to return SIP Shine's property constitutes common law conversion.

54. The value of the property presently known by SIP Shine to have been converted by Red Boot totals \$752,618.29.

WHEREFORE, SIP Shine prays for an Order of this Court awarding SIP Shine the value of all property converted by Red Boot, together with interest, costs and attorney's fees incurred herein and such other relief as this Court may deem just and equitable.

COUNT V – STATUTORY CONVERSION; MCL 600.2919

55. Plaintiff SIP Shine repeats, as if fully set forth herein, the allegations contained above in paragraphs 1-54.

56. The property described in Count IV has been converted to Red Boot's use and Red Boot has refused to return said property to SIP Shine without justification.

57. MCL 600.2919a(1) makes it unlawful to convert property of SIP Shine to Red Boot's use.

58. By converting SIP Shine's property to its own use, Red Boot is liable to SIP Shine under MCL 600.2919 for three times the amount of actual damages plus costs and reasonable attorney's fees.

59. SIP Shine's actual damages known to date for Red Boot's conversion under MCL 600.2919a is \$752,618.29, though this amount may be higher following additional investigation and discovery.

WHEREFORE, SIP Shine prays for a judgment of this Court awarding SIP Shine three times its actual damage for property converted by Red Boot under MCL 600.2919, plus interest, costs and attorney's fees incurred herein and such other relief as this Court may deem just and equitable.

COUNT VI – FRAUD

60. Plaintiff SIP Shine repeats, as if fully set forth herein, the allegations contained above in paragraphs 1-59.

61. Red Boot knowingly and deliberately disregarded SIP Shine's specifications for conforming product and substituted alternate ingredients at lower cost while fraudulently concealing the unlawful and unauthorized substitution from SIP Shine, but instead knowingly representing to SIP Shine that the goods produced conformed to SIP Shine's specifications, TTB registrations and labeling. These representations were material and Red Boot knew its representations were false when they were made.

62. SIP Shine's reputation depends upon its honesty in representing to its customers and the consuming public the integrity of its products sold in the marketplace.

63. Red Boot misrepresented the goods it had produced which were banned from shipment by TTB and other non-conforming products which were shipped prior to discovery by the TTB that the product was not as labeled or registered.

64. SIP Shine has suffered damages as a result of Red Boot's fraudulent misrepresentations as set forth above. Additionally, Red Boot has wrongfully profited in an unknown amount from all shipments of non-conforming product which occurred prior to TTB's ban on shipments, and has been unjustly enriched by its fraudulent misrepresentations, all at the expense of SIP Shine and SIP Shine's reputation.

65. SIP Shine supplied raw materials to Red Boot and made payments on the purchase orders which were found to be non-conforming in reliance on Red Boot's representation that the goods produced were in conformity with SIP Shine's specifications, the product registration and the labeling. These representations were false and were known to be false at the time they were made by Red Boot.

66. SIP Shine is entitled to recover from Red Boot the actual damages it has suffered as a result of the fraud and all sums received by Red Boot by which it was unjustly enriched as a result of its unauthorized and unlawful substitution of product ingredients.

67. SIP Shine is further entitled to exemplary damages as a result of Red Boot's deliberate fraud.

WHEREFORE, SIP Shine prays for a judgment of this Court in the amount of SIP Shine's actual damages caused by Red Boot's fraud, Red Boot's fraudulently obtained profits from sale of SIP Shine products, exemplary damages, interest, costs and attorney's fees incurred herein and such other relief as this Court may deem just and equitable.

COUNT VII – NEGLIGENT MISREPRESENTATION

68. Plaintiff SIP Shine repeats, as if fully set forth herein, the allegations contained above in paragraphs 1-67.

69. Red Boot was negligent in representing that the product it was producing for SIP Shine conformed to the specifications provided by SIP Shine, as well as the TTB registration and labeling.

70. Red Boot had all the information it needed to make it aware that such representations regarding the ingredients in the non-conforming product were false, yet it persisted in representing that the products were conforming.

71. SIP Shine has been damaged by Red Boot's negligent misrepresentations, as set forth more fully above.

72. SIP Shine is entitled to recover all damages proximately caused by Red Boot's negligent misrepresentations.

WHEREFORE, SIP Shine prays for a judgment of this Court awarding SIP Shine its damages resulting from Red Boot's negligent misrepresentation in an amount yet to be determined above \$75,000.00, together with interest, costs and attorney's fees incurred herein and such other relief as this Court may deem just and equitable.

JURY DEMAND

Plaintiff SIP Shine hereby requests trial by jury.

GENERAL INSTRUCTIONS

Every person who is required to file a formula under 27 CFR Parts 4, 5, 7, 19, 24, 25, and 26 must submit this form to the Advertising, Labeling, and Formulation Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G St., NW, Box 12, Washington, D.C. 20005. Permit approval and formula approval are required prior to manufacture/importation of any product requiring a formula. Production may commence upon receipt by the proprietor of an approved formula on TTB F 5100.51.

The number of copies to be filed is as follows: one copy for TTB's records, and either one additional copy, or one additional copy for each facility identified in Item 1.

If the formula is approved, one copy will be retained by TTB and the remaining approved copy(ies) will be sent to the addressee. The addressee will forward approved copies (or two-sided reproductions) to each facility identified in Item 1.

SPECIFIC INSTRUCTIONS

Formula #- and Formula Superseded.

Number the formulas in sequence commencing with the number "1." An applicant who has more than one facility must use a unique system of serial numbers that does not duplicate any formula number used at any plant. If this formula will supersede a previous approved formula with the same formula number, please check the box.

- Item 1.

Enter the name and complete address of the applicant or importer, and the city and state for all other facilities where the product will be produced if the product is produced domestically.
- Item 1a.

(For Domestic Products) Enter the complete mailing address of the applicant if different than the information in Item 1.
(For Imported Products) Enter the complete name and mailing address of the foreign producer.
- Item 2.

Enter the contact person's full phone number including area code and extension, if necessary.
- Item 3.

Enter the plant registry/basic permit/brewer's notice number for each facility that will produce or import the product.
- Item 4.

The class and type must conform to one of the class and type designations in the regulations issued under the Federal Alcohol Administration Act. Wine products containing less than 7 percent alcohol by volume must be designated in accordance with the labeling regulations 27 CFR Part 24 and the Federal Food, Drug and Cosmetic Act, 21 CFR. Do not show a brand or fanciful name in item 4.
- Item 5.

Enter the brand or fanciful name in item 5 (does **NOT** constitute approval for use on a label). If a brand or fanciful name has not

proprietor product number (if none, so indicate), drawback formula number (if none, so indicate), city and state of the flavor manufacturer, date of approval of the nonbeverage formula, alcohol content of the flavor or blender (if nonalcoholic, so indicate), and a description of any coloring material contained in the flavor or blender.

- (d)

Identify all allergens added directly to the product or contained in the flavor materials. Allergens may include Crustacean shellfish, fish, soy (soybean(s), soya), wheat, milk, eggs, peanuts, or tree nuts. For shellfish and tree nuts, the label and formula must indicate the specific type or species.
- (e)

Identify the use of any artificial sweeteners.

Distilled Spirits only:

- (f)

If any type of wine (including vermouth) is to be used in the product, state the kind, percentage of wine to be used, whether the wine is domestic or imported, whether the wine contains added wine spirits, and the percentage of alcohol by volume of the wine, and the amount of alcohol contributed to the final product on a proof gallon basis.
- (g)

If the finished product is to be labeled as containing a particular class and type of distilled spirits (such as "Blackberry Liqueur & Brandy" or "Coffee Liqueur & Non- Dairy Creamer") the ingredients used to produce the particular class and type of distilled spirits must be listed in a manner so that they are distinguishable from the remaining ingredients for the finished product.

- Item 7.

Show in sequence each step employed in producing the product including the step at which the specified materials will be added and the approximate period of time to complete production.
(For Malt Beverages) Describe in detail each special process used to produce a beer product. Omit processes customarily used in brewing such as pasteurization or ordinary filtration.
- Item 8.

Enter the total yield of the finished product, e.g., 150 gallons, 1500 gallons, 150 barrels.
- Item 9.

If the product is to be bottled at more than one alcohol content within the same tax rate, state the alcoholic content as a range to include all alcoholic contents at which the

yet been chosen, leave item 5 blank.

product will be bottled, provided that the product does not change class and type.

Item 6.

- (a) Specify the kind and quantity of each and every material or ingredient to be used in the formulation of a batch of the product, e.g., 100 gallons, 1000 gallons, 100 barrels.
- (b) Identify all coloring agents added directly to the product or contained in flavor materials. Certified food colors must be identified by FD&C number, for example "FD&C Yellow No. 5."
- (c) Identify flavoring or blending materials by the name of the flavor or blender, name of the flavor or blender proprietor,

Item 9a.

(For Malt Beverages) Enter the percentage of alcohol derived from flavors or other materials containing alcohol.

Item 9b.

(For Malt Beverages) Enter the percentage of alcohol derived from the malt base of the product.

Item 10.

(For Domestic Products) Applicant is the person required to file a formula under TTB regulations.

(For Imported Products) Importer is the person who imports the product.

CONDITIONS FOR FORMULA APPROVAL

This approval is granted under 27 CFR Parts 4, 5, 7, 19, 24, 25, and 26 and does not in any way provide exemption from or waiver of the provisions of the Food and Drug Administration regulations relating to the use of food and color additives in food products.

Addition of remnants or returned merchandise to a completed product made under the same formula is permitted.

PAPERWORK REDUCTION ACT NOTICE

This request is in accordance with the Paperwork Reduction Act of 1995. We collect this information to verify your compliance with Federal laws and regulations we administer for the formulation of alcohol beverages. The information is mandated by statute (26 U.S.C. Chapter 51) and is used to obtain a benefit. The information collected on this form must be considered confidential tax information under 26 U.S.C. 6103, and must not be disclosed to any unauthorized party under 26 U.S.C. 7213.

We estimate 2 hours as the average burden for you to complete this form depending on your individual circumstances. You may comment to us about the accuracy of this burden estimate and suggest ways for us to reduce the burden. Address your comments or suggestions to: Reports Management Officer, Regulations and Rulings Division, Alcohol and Tobacco Tax and Trade Bureau, Box 12, Washington, DC 20005.

GENERAL INSTRUCTIONS

Every person who is required to file a formula under 27 CFR Parts 4, 5, 7, 19, 24, 25, and 26 must submit this form to the Advertising, Labeling, and Formulation Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G St., NW, Box 12, Washington, D.C. 20005. Permit approval and formula approval are required prior to manufacture/importation of any product requiring a formula. Production may commence upon receipt by the proprietor of an approved formula on TTB F 5100.51.

The number of copies to be filed is as follows: one copy for TTB's records, and either one additional copy, or one additional copy for each facility identified in Item 1.

If the formula is approved, one copy will be retained by TTB and the remaining approved copy(ies) will be sent to the addressee. The addressee will forward approved copies (or two-sided reproductions) to each facility identified in Item 1.

SPECIFIC INSTRUCTIONS**Formula #- and Formula Superseded.**

Number the formulas in sequence commencing with the number "1." An applicant who has more than one facility must use a unique system of serial numbers that does not duplicate any formula number used at any plant. If this formula will supersede a previous approved formula with the same formula number, please check the box.

Item 1. Enter the name and complete address of the applicant or importer, and the city and state for all other facilities where the product will be produced if the product is produced domestically.

Item 1a. **(For Domestic Products)** Enter the complete mailing address of the applicant if different than the information in Item 1. **(For Imported Products)** Enter the complete name and mailing address of the foreign producer.

Item 2. Enter the contact person's full phone number including area code and extension, if necessary.

Item 3. Enter the plant registry/basic permit/brewer's notice number for each facility that will produce or import the product.

Item 4. The class and type must conform to one of the class and type designations in the regulations issued under the Federal Alcohol Administration Act. Wine products containing less than 7 percent alcohol by volume must be designated in accordance with the labeling regulations 27 CFR Part 24 and the Federal Food, Drug and Cosmetic Act, 21 CFR. Do not show a brand or fanciful name in item 4.

Item 5. Enter the brand or fanciful name in item 5 (does **NOT** constitute approval for use on a label). If a brand or fanciful name has not

proprietor product number (if none, so indicate), drawback formula number (if none, so indicate), city and state of the flavor manufacturer, date of approval of the nonbeverage formula, alcohol content of the flavor or blender (if nonalcoholic, so indicate), and a description of any coloring material contained in the flavor or blender.

- (d) Identify all allergens added directly to the product or contained in the flavor materials. Allergens may include Crustacean shellfish, fish, soy (soybean(s), soya), wheat, milk, eggs, peanuts, or tree nuts. For shellfish and tree nuts, the label and formula must indicate the specific type or species.
- (e) Identify the use of any artificial sweeteners.

Distilled Spirits only:

- (f) If any type of wine (including vermouth) is to be used in the product, state the kind, percentage of wine to be used, whether the wine is domestic or imported, whether the wine contains added wine spirits, and the percentage of alcohol by volume of the wine, and the amount of alcohol contributed to the final product on a proof gallon basis.
- (g) If the finished product is to be labeled as containing a particular class and type of distilled spirits (such as "Blackberry Liqueur & Brandy" or "Coffee Liqueur & Non- Dairy Creamer") the ingredients used to produce the particular class and type of distilled spirits must be listed in a manner so that they are distinguishable from the remaining ingredients for the finished product.

Item 7. Show in sequence each step employed in producing the product including the step at which the specified materials will be added and the approximate period of time to complete production.

(For Malt Beverages) Describe in detail each special process used to produce a beer product. Omit processes customarily used in brewing such as pasteurization or ordinary filtration.

Item 8. Enter the total yield of the finished product, e.g., 150 gallons, 1500 gallons, 150 barrels.

Item 9. If the product is to be bottled at more than one alcohol content within the same tax rate, state the alcoholic content as a range to include all alcoholic contents at which the

yet been chosen, leave item 5 blank.

Item 6.

- (a) Specify the kind and quantity of each and every material or ingredient to be used in the formulation of a batch of the product, e.g., 100 gallons, 1000 gallons, 100 barrels.
- (b) Identify all coloring agents added directly to the product or contained in flavor materials. Certified food colors must be identified by FD&C number, for example "FD&C Yellow No. 5."
- (c) Identify flavoring or blending materials by the name of the flavor or blender, name of the flavor or blender proprietor,

product will be bottled, provided that the product does not change class and type.

Item 9a.

(For Malt Beverages) Enter the percentage of alcohol derived from flavors or other materials containing alcohol.

Item 9b.

(For Malt Beverages) Enter the percentage of alcohol derived from the malt base of the product.

Item 10.

(For Domestic Products) Applicant is the person required to file a formula under TTB regulations.

(For Imported Products) Importer is the person who imports the product.

CONDITIONS FOR FORMULA APPROVAL

This approval is granted under 27 CFR Parts 4, 5, 7, 19, 24, 25, and 26 and does not in any way provide exemption from or waiver of the provisions of the Food and Drug Administration regulations relating to the use of food and color additives in food products.

Addition of remnants or returned merchandise to a completed product made under the same formula is permitted.
